

**29. July 2019**  
**First day of the novena to God Father**  
**„God our Father is love“**

During the following days we will hear some short meditations about God our heavenly Father.

Some catholics celebrate privately a feast to God our Father on August 7. They follow a request of God Father himself, which he revealed to a religious, named Mother Eugenia Ravaso in the year of 1932 in a privat revelation. This revelation was proved by the church and very well confirmed.

I proved myself spiritually this little book and found it most important. So I could receive a lot of grace through reading and praying. Therefore I can testify that since that time the relationship to God our heavenly was deepened.

Through the words of our Father, originally given in Latin, we understand better how strong the love of our Father is he is expressing in countless ways and examples.

It is most important for us human beings to understand Gods love and to let his love enter into our hearts. We should realize our existence as most beloved children. This would be our real safety and a strong rock in our life. Gods love is a true fundament to built our house of life.

If we realize that we are loved by God - and this is for certain - nothing can come so hard that we will loose our hearts.

Therefore I made some little meditations the coming nine days. They are not primilary a teaching. The are simple words to touch our hearts from Gods love.

Nothing is more, nothing is greater, nothing is more important in our life as to open our heart for Gods love.

Also from the perspective of God we have to know that there is a strong longing from God that he can share his love with us and he is waiting for our answer.

If the words and the holy music can serve in this following days to meet deeper our haevenly Father it would be a great joy.

God is love.

This is the basic of all what is said from the Holy Scripture and we can repeat this all the time with our burning heart. With this word all is said.

God is love.

Now we only have to understand and to experience this holy Love in all aspects during our lifetime and without limitations in eternity.

In *Gen. 1:26* we hear: „*God said, 'Let us make man in our own image, in the likeness of ourselves'*“, and in *Gen. 1:31* „*God saw all he had made, and indeed it was very good.*“

We carry the image of God in us.

God made all out of his love.

So we understand that Love is the deepest reason of our existence.

We live because of Gods love.

Real life is only if we live in this love and if we answer to his love.

God our Father is light without any shadow and darkness.

All his intentions are pure he can not contradict himself.

God our Father is almighty and full of goodness.

The fallen Angel wanted to have the omnipotence of God but not his goodness.

But the real omnipotence of God is to be seen in his goodness, especially in his overwhelming mercy.

How we can understand God?

We will better understand him through the way of love.

God himself sent us the Holy Spirit given to us, the Love between the Father and the Son.

If we learn to live with God in an intimate and trustful relationship we will notice more and more:

God loved us first.

God wants to forgive.

God wants to save us.

God wants to redeem us.

God wants to complete all in him.

God wants to live with his children.
